EQUIPMENT

T17

HIGH-PERFORMING, HEAVY-DUTY, BATTERY RIDE-ON SCRUBBER-DRYER

- Maximise your floor cleaning capacity in the harshest industrial locations
- Minimise costs and protect your investment with durable and quality construction
- Reduce slips and falls with water recovery system that leaves floors virtually dry
- Clean effectively with ec-H₂O™ technology
- Provide an easy operator and maintenance experience

DESIGNED TO **HELP REDUCE YOUR COST TO CLEAN**, **IMPROVE FACILITY IMAGE**, AND **PROVIDE A SAFE ENVIRONMENT**.

ec-H2O™ technology electrically converts water into an innovative cleaning solution that cleans effectively, saves money, improves safety, and reduces environmental impact* compared to daily cleaning floor chemicals and methods.

ES® Extended Scrubbing productivity enhancement system recycles cleaning chemicals to increase uptime and improve productivity by scrubbing floors using 66% less chemicals than traditional cleaning methods.

AN INNOVATIVE HEAVY-DUTY, HIGH-PERFORMANCE, BATTERY RIDE-ON SCRUBBER-DRYER FOCUSED ON DELIVERING CUSTOMISED SOLUTIONS TO MEET CUSTOMER NEEDS.

THE T17 ADDRESSES YOUR KEY BUSINESS CHALLENGES

REDUCE COST TO CLEAN

Productivity

- Clean a 7-8 hour shift in economy mode, on a single charge, with the largest available battery capacity in its class and reduce costs with maintenance-free brushless scrub and propel motors.

Durability

- Protect your investment with a high-performance scrubber that withstands wear and tear in the harshest environments.

HEALTH & SAFETY

- Help maintain a safe environment with reduced risk of slips and falls with our excellent water recovery system.

ENHANCE FACILITY IMAGE

- Maintain a high standard of consistently clean floors in your facility with a high-performance scrub system that delivers significant cleaning power.

EASY OPERATION & MAINTENANCE

- Maximise uptime with easy-to-use operator controls and yellow touch points that provide quick identification to maintenance locations.

INSIDE THE T17

1-Step™ start button simplifies operator training with controls that enable scrubbing systems to be activated with a single large green button

Largest available battery capacity provides increased cleaning productivity

Debris basket prevents clogging

Full front shroud provides operator protection

Wrap-around steel bumper helps protect your investment

Maintenance-free AC propel system extends component life through the use of a sealed, controlled-speed, brushless motor

Yellow touch points save time and ensure proper maintenance

Cushioned stacked rollers provide a layer of protection while manoeuvring

Cylindrical scrub head for scrubbing and sweeping in a single pass

Swinging squeegee provides excellent water recovery to help reduce slips and falls

Optional right hand or dual sweeping side brushes for edge-to-edge cleaning efficiency

Optional dry sweeping system captures debris and dust effectively for easy disposal.

Disk scrub head for effective scrubbing and simple no-tool brush change.

Scrubbing side brush for increased reach allowing edge-to-edge cleaning and 30% wider scrub path.

ENGINEERED FOR PRODUCTIVITY

PATENT-PENDING TECHNOLOGY HELPS KEEP WATER OFF YOUR FLOORS

Dura-Track™ squeegee leaves floors drier with a swinging parabolic design that provides uniform suction across the squeegee blade for exceptional water pickup.

1-Step™ Start Button

Recovery Tank Access Step

Dual vacuum fans provide more airflow than single fan systems. The corrosion-resistant impeller design enables them to last longer than other fans.

Dual Vacuum Fans

Revolutionary patent-pending water trap helps reduce spills and dripping by providing unrestricted airflow and captures moisture left in the recovery hose on shutdown.

Water Trap and Yellow Maintenance Touch Points

Variable Drain Valve™ System prevents messy clean ups and overflows with the easily adjustable tank drain valve. Large 77 mm drain hoses deliver fast clean out.

Flow Control Cuff

FOPS certified overhead guard protects operators from falling objects.

Vacuum wand provides convenient and quick off-machine spill recovery.

Spray hose makes machine spray-down and cleanup quicker and easier.

Rear squeegee protection kit helps lower maintenance and repair costs and prevents damage to squeegee.

KEY OPTIONS

ENVIRONMENTAL STEWARDSHIP

ec-H2O and FaST technologies are NFSI (National Floor Safety Institute) Certified. NFSI certification ensures a product has passed a 2-phase testing process, proving the floor product helps to reduce potential for slip-and-fall accidents.

ec-H2O and FaST technologies are registered by NSF International. NSF International is an independent, not-for-profit organisation that ensures formulation and labels on these products meet appropriate food safety regulations.

Tennant FaST 365 and FaST 965 detergents have been awarded the European Eco-label. This proves that our Tennant FaST detergents have a reduced environmental impact compared to standard detergents

ec-H2O™ technology won the European Business Award 2009 for the Business Innovation of the Year, one of the most prestigious business awards. The European Business Awards (www.businessawardseurope.com) is an independent awards programme designed to recognise and promote excellence, best practice and innovation in the European business community.
